Background

When the Friends group was first set up, the improvement of the playground was highlighted as a community priority, and during our first few months we had the opportunity to apply for a grant from the Big Lottery Fund's Community Spaces programme. We enlisted the help of Green Street Green Primary School and surveyed over 240 students, older siblings and parents. This consultation allowed the children to choose the equipment they preferred and aided us in the redesign of the Playground. We also consulted 1600+ local homes and most residents agreed that the Playground was in need of development and 100% of respondents supported our application. Below is a photo of the playground taken on the 13/06/2012 with most of the works having been carried out.
